Hi Roylene,

Dennis would like to send the draft memo up to Bob Perciasepe tomorrow, so if you can get me any comments by COB today we can incorporate them into the draft. Right now just focus on the "three deputies" memo. It is intended to get all of the federal caucus agencies, at the Deputy level, to pay more attention to the Tribes' issues.

Also Dennis asked me to contact you about Yakima, in particular, the Dairy Federations' assertion that we are requiring them to do way more than NRCS.

We did review and have concerns that the memos don't really have substance to them. I am unclear of what points are being made and what we are asking for.

With that being said Sherre and I will get our suggestion to you by today.

Subject: Final draft of the three deputies memo

Hi Roylene and Sherre,

Attached is the final draft of the memo from the Deputies of EPA, NOAA and Agriculture to the Deputies of the other federal agencies regarding the tribal habitat issues in Puget Sound and along the coast in Washington. This incorporates NOAA's edits. Dennis wants to get this up to Bob Perciasepe by tomorrow so, ideally, this can be sent out in advance of the Tribes' meeting with the White House on December 5th. Please let me know if you have any comments as soon as possible.

This is intended to be accompanied by a memo from your Deputy to you asking you to do more on salmon recovery. I have attached the draft we prepared for Bob Perciasepe to Dennis as an example.
